Dear Governor Corzine,

I am a concerned voter and really realize the importance of this park. If they cannot move in 2008 then it will be a huge loss for the youth and adults of NJ. This is the only off - road recreational park in NJ. The pinelands commission signed an agreement with us (NJORVP, Inc.) to assist in relocating the park by 2008. To this point the commission has reneged on this agreement. They need to be allowed to remain at there current location or to relocate. This will help local business and keep illegal riding down.

Sincerely,
